EDUCATION

- **Chandigarh University** Mohali, India
Bachelor of Engineering - Computer Science; GPA: 8.3 July 2019 - June 2023
- **DAV Public School** Shimla, India
Intermediate - CBSE; Percentage : 94.04% 2018 - 2019
- **Chapslee School** Shimla, India
Matriculation - CBSE; GPA : 10 2016 - 2017

SKILLS SUMMARY

- **Technical Skills:** React.js, JavaScript, TypeScript, Redux, Tailwind, Jest, Angular, Java, OOPS, HTML/CSS , Bootstrap , Agile , MuleSoft , RESTful API, Technical Writing , Vulnerability Remediation
- **Technical Tools:** Git, Bitbucket, Jenkins , Openshift , Postman , Anypoint Studio , Jira
- **Soft Skills:** Problem Solving , Teamwork, Time Management , Volunteerism and Community Engagement , Empathy , Decision Making

EXPERIENCE

- **Bank Of America (BA Continuum India)** Gandhinagar
Officer , Software Engineer 1 January 2025 - Present
 - **Form Digitization:** Built workflows for digitization of forms and their processes reducing redundancy by 50%.
 - **Utility innovation :** Built a utility to setup configurations for forms reducing setup time by 90% .
 - **End-to-End Solution Development:** Collaborated with cross-functional teams to design and implement end-to-end flows, integrating various downstream systems and RESTful APIs.
- **Bank Of America (BA Continuum India)** Gandhinagar
Software Engineer 1 July 2023 - January 2025
 - **Application modernization:** Redesigned a legacy application from scratch using React.js , Redux and MUI, maintaining core functionality while delivering a modern UI/UX and a new insights-driven dashboard.
 - **Vulnerability Management:** Took ownership of improved application security by remediating vulnerabilities and ensuring compliance with industry standards.
 - **Unit Test Integration:** Integrated Jest into the project for unit testing increasing the code coverage by 40%
 - **Technical Writing and Knowledge Sharing:** Contributed to internal technology focus groups by publishing technical articles to share knowledge and promote engineering best practices.
 - **Volunteerism:** Participated in various volunteering opportunities completing around 50 hours annually.
- **Bank Of America (BA Continuum India)** Gandhinagar
Academic Intern Tech January 2023 - July 2023
 - **Technical Upskilling:** Completed intensive trainings on key technologies like Java, Cloud, Unix, and Agile methodologies, enhancing technical versatility.
 - **MuleSoft Integration:** Contributed to a MuleSoft-based project, focusing on middleware technology to improve system integration.
 - **Service Optimization and Development :** Identified and resolved issues by debugging existing services to optimize system performance, while also designing and implementing new services .

PROJECTS

- **MeFit - Android Fitness Application (Java, Android Studio, Firebase):** (2021) An android application consisting of various modules like login , edit profile , home page , calorie tracker , water intake tracker , fitness calculators etc. The application was built in Java using Android Studio with Firebase as the DB.
- **Portfolio Website (React, HTML/CSS, Javascript, MUI):** (2024) Designed and developed a responsive personal portfolio website using React.js, showcasing projects, skills, and experience with smooth navigation and dynamic components; optimized performance and accessibility for a seamless user experience.

AWARDS , RECOGNITIONS AND ACHIEVEMENTS

- Bank of America Global Recognition (**Bronze Award**) - For contributions to project in 2025
- Bank of America **Honor Roll Award** - For contribution of 50+ hours in volunteering
- Bank of America Global Recognition (**Silver and Bronze Award**) - For contribution in project delivery for 2024
- **Top 5 in Walmart Hackathon** , organized at Chandigarh University in 2022
- **Co-authored a Research paper** on Breast Cancer detection using neural network in 2022
- Solved 100+ leetcode questions

CERTIFICATIONS

- Introduction to Containers , Kubernetes and OpenShift v2 -IBM
- Foundation of Cryptography – NPTEL
- Web Design for Everybody : Basics of Web Development & Coding Specialization from Coursera
